Internal & External Hard Drives Product Reference Guide

2012 #24

HGST
a Western Digital company

Internal Hard Drives Product Highlights

Travelstar™ 5K1000

One terabyte of mobile storage for notebook PCs and other applications

Travelstar 5K1000 is a 5400 RPM, 500GB/platter, 2.5-inch hard drive available in 640GB, 750GB and 1TB models. This standard 9.5mm, two-disk design, intended for use in notebook PCs, external storage, gaming consoles and other mobile applications, leverages Advanced Format, which increases the physical sector size on hard drives from 512 bytes to 4096 (4K) bytes to increase drive capacities and improve error correction capabilities.

Travelstar Z7K500

Slim, high-capacity storage for notebook PCs and mobile applications

Travelstar Z7K500 is the second generation 7mm, 5400 and 7200 RPM 2.5-inch hard drive from HGST, with capacities ranging from 250GB to 500GB and the second generation Advanced Format drive.

Ultrastar™ C10K900

Industry-leading power and performance for the Enterprise

Ultrastar C10K900 is a 2.5-inch 10,000 RPM hard drive that leads the industry with up to 18% faster performance and up to 28% lower power than the competition.

Ultrastar 15K600

The all-in-one enterprise drive delivers performance and capacity in one package

Combines ultimate performance with high capacity in the same drive. The 6Gb/s Serial Attached SCSI (SAS) and 4Gb/s Fibre Channel Arbitrated Loop (FCAL) interfaces support the reliability required in the most demanding enterprise computing environments.

Ultrastar 7K4000

The world's first 4TB enterprise drive

HGST raises the bar for enterprise-class capacity-optimized drives. HGST is consistently ranked top in product quality and reliability by OEMs around the world, and we've proved it by offering the SATA HGST Ultrastar 7K3000 drives at 2.0 million hours MTBF -- the highest in the industry for 7,200 RPM enterprise-class drives. Ultrastar 7K3000 SAS available in 3TB/2TB configurations.

Ultrastar SSD400S.B

Performance and endurance for the enterprise

2.5-inch SAS 6Gb/s SLC NAND solid state drive. Reaches speeds up to 100 times faster than HDDs and endurance up to 5 times higher than MLC-based products.

Ultrastar SSD400M

Highest sequential performance in an MLC based product.

2.5-inch SAS 6Gb drive with superior reliability enterprise grade 25nm (30k PE) 10 writes per day 5 yr warranty with exclusive power-loss data management.

Preparing for the Big 4TB

Introduction of High-Capacity Hard Drives

While manufacturers begin introducing the latest generation of high-capacity drives, the industry has been working to resolve known capacity addressing limitations that date back to original design of the PC. These limitations are caused by 32-bit definitions used for sector size and logical block addresses (LBA)[1].

Now that hard drives with capacities greater than or equal to (≥) 2.2 terabytes are available, users will need to implement a combination of operating systems, BIOS, drive partition tables, and HDD drivers that support >2.2TB in order to gain trouble-free access to the higher capacities offered. When working in legacy environments, more effort will be required to ensure that all components are capable of supporting high-capacity drives.

High-Capacity-Aware Operating Systems Summary

The following table is a summary of operating systems support for high-capacity hard drives. All configurations assume that partitioning is done using GPT partition tables (rather than MBR)

Operating System	4TB as Boot Disk	4TB as Data Disk
Microsoft Windows XP (x32)	No	No
Microsoft Windows Vista SP1 or later x32	No	Yes
Microsoft Windows Vista SP1 or later x64	Yes, with EFI	Yes
Microsoft Windows 7 (x32)	No	Yes
Microsoft Windows 7 (x64)	Yes, with EFI	Yes
Intel-based Mac OS X 10.6+	Yes	Yes
Linux UBUNTU 8.04+/SUSE x32, x64	Yes	Yes

[1] 32 bit limitation: 512 byte sectors x 2^32 bits = 2.199 TB

External Hard Drives Product Highlights

Touro Desk
Solid storage, big capacities.

Simple storage expansion suited for all your photos, movies and documents, Touro Desk offers solid storage for all your important stuff. Effortless plug and play, with all the quality and reliability you expect from HGST.

Touro Mobile
Ready to go when you are.

Take all your files with you, with portable storage that fits well into your purse or briefcase. Plug and play simplicity powered by USB, which means there is no power cord to tie you down.

Touro Pro Desk
Two layers of backup, one great drive.

With not just one, but two layers of protection, Touro Pro Desk comes with local and 3 GB of cloud backup providing a great way to safeguard your files. Enjoy fast USB 3.0 transfer speeds and fast 7200 RPM performance to boot!

Touro Pro Mobile
Good things come in small packages.

Touro Pro Mobile not only fits in your pocket, it also comes with local and 3 GB of cloud backup. It's not only a great way to safeguard your files; it's also fast with USB 3.0 and fast 7200 RPM performance.

G-Technology
Performance. Style. Reliability.

G-Technology manufactures premium, high-quality external storage devices designed for professional content creators and Mac enthusiasts. Our products meet and exceed the demands and rigors of professional audio/ video editing and image production applications.
